Program Credit Hours

The Program Credit Hours summary includes the cumulative credit hours attempted in program; the cumulative credit hours passed; the cumulative grade point average (see under GPA Calculations for information). The Credit Hours Passed includes all courses completed with a grade of "D" or higher (see Grading System for Information including repeated courses). Program regulations may not permit courses with grades of "D" to count toward degree requirements. The UNB Calendar should be consulted for program regulations regarding grades required for degree purposes.

GPA Calculations

From 1974-75 to 1984-85, two g.p.a. calculations were shown: session and cumulative. From 1985-86 - 1994-95, three g.p.a. calculations were shown: session, cumulative and assessment. As of 1995-96, two g.p.a. calculations are shown: program cumulative and program assessment. The program assessment g.p.a. includes all work completed from the beginning of the program or since the last assessment g.p.a. was taken, provided 24 credit hours of work were attempted. In the Faculty of Law, a session g.p.a. is shown. Not all courses necessarily included in the g.p.a. (such as those deemed extra to the program or forgiven on appeal).

Academic Decisions

In Good Academic Standing - Permitted to re-register.

Academic Probation – Must maintain assessment g.p.a of at least 2.0 in each subsequent assessment period or required to withdraw. This status permitted only once in a program.

Required to Withdraw – Not permitted to register for a period of at least 12 months.

Required to Withdraw from Faculty – Not permitted to continue in current program.
